

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience in cybersecurity, cloud engineering, and technical support, with a strong foundation in IT infrastructure, networking, and security operations.
- Experienced in triaging security alerts, following playbook-driven processes, and determining whether events are malicious, suspicious, or benign before escalation.
- Skilled in dispatching and escalating incidents to senior security engineers, supporting investigations with log analysis, endpoint data, and network context.
- Hands-on experience with endpoint security, identity and access management, cloud services, and perimeter security controls across enterprise environments.
- Proven ability to communicate clearly with technical and non-technical stakeholders to ensure timely and accurate incident handling.
- Strong attention to process, documentation, and continuous improvement, with experience contributing to runbooks and operational procedures.
- Adaptable, curious, and eager to learn in fast-paced, evolving security environments while maintaining high service and response quality.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA NPower Canada Toronto, Ontario	03/2026
Career Essentials in Cyber Security Microsoft and LinkedIn	03/2026
Certified Information Systems Auditor (CISA) ISACA	01/2025
Certified In Cybersecurity ISC2	06/2023

Graduate Certificate in Cybersecurity and Threat Management

Seneca Polytechnic | Toronto, Ontario

04/2023

Bachelors in Computer Science

Federal University of Petroleum Resources | Effurun, Delta State

08/2016

Professional Experience

Applications Security & Field Services Technician

08/2023 –08/2025

Accenture | Toronto, Ontario

- Triaged and monitored security alerts across enterprise and cloud environments, applying documented playbooks to quickly assess and categorize events.
- Determined whether security events were potentially malicious or benign by reviewing logs, endpoint activity, identity events, and network indicators.
- Dispatched confirmed or suspicious incidents to senior security engineers, ensuring timely escalation and accurate contextual information.
- Assisted with incident investigations by collecting supporting evidence, including endpoint telemetry, authentication logs, and network data.
- Communicated effectively with infrastructure, application, and security teams to coordinate response actions and resolve customer-impacting issues.
- Supported the maintenance and improvement of security runbooks and procedures to enhance consistency and efficiency of triage operations.
- Reviewed vulnerability scan results and assisted with remediation prioritization based on risk and operational impact.
- Supported audits and compliance activities by gathering evidence, validating controls, and documenting findings.
- Produced clear incident notes, summaries, and handoff documentation to support operational continuity and knowledge sharing.
- Demonstrated flexibility and a positive, can-do attitude while working across multiple teams in a dynamic enterprise environment.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Supported and maintained cloud infrastructure on AWS, developing a strong understanding of networking, access control, and system operations.
- Implemented and managed IAM roles, MFA, security groups, and logging to support secure access and authentication.
- Monitored cloud workloads, logs, and alerts to identify operational and security-related anomalies.
- Assisted with incident response and troubleshooting for infrastructure, access, and application issues.
- Worked closely with development and operations teams to explain technical issues clearly and support timely resolution.
- Supported secure migration of on-premise systems to AWS, following documented processes to minimize risk and downtime.
- Automated routine infrastructure tasks using scripting and infrastructure-as-code to improve reliability and consistency.
- Documented configurations, procedures, and troubleshooting steps, contributing to internal runbooks and knowledge bases.
- Built hands-on experience with cloud-based security concepts relevant to IaaS, endpoint access, and monitoring.
