

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience in cybersecurity, governance, risk, and compliance, with a strong focus on security control assessment, control testing, and risk evaluation within regulated environments.
- Hands-on experience performing security and control assessments, walkthroughs, and evidence-based testing aligned with compliance, audit, and privacy requirements.
- Strong background supporting financial services and enterprise environments, assessing controls across networking, application security, databases, identity, and cloud platforms.
- Experienced in participating in security review discussions and assessment workshops with stakeholders to validate control effectiveness and document gaps.
- Skilled in supporting compliance and audit activities aligned with frameworks and standards such as ISO 27002, PCI DSS (exposure), and NIST, with working knowledge of SWIFT CSP concepts.
- Certifications-focused professional (CISA, ISC2 CC) with strong documentation, communication, and stakeholder engagement skills.
- Detail-oriented, process-driven, and effective at executing control testing activities without involvement in control design.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA NPower Canada Toronto, Ontario	03/2026
Career Essentials in Cyber Security Microsoft and LinkedIn	03/2026
Certified Information Systems Auditor (CISA) ISACA	01/2025
Certified In Cybersecurity ISC2	06/2023

Graduate Certificate in Cybersecurity and Threat Management

04/2023

Seneca Polytechnic | Toronto, Ontario

Bachelors in Computer Science

08/2016

Federal University of Petroleum Resources | Effurun, Delta State

Professional Experience

Applications Security & Field Services Technician

08/2023 –08/2025

Accenture | Toronto, Ontario

- Performed security and risk control assessments across enterprise and financial services environments, focusing on control effectiveness rather than control design.
- Conducted control walkthroughs with technology and business stakeholders to understand control implementation, operation, and evidence availability.
- Executed control testing activities by reviewing system configurations, logs, access controls, and supporting documentation against compliance and audit requirements.
- Supported security review discussions and assessment workshops to validate controls related to application security, networking, identity, endpoint, and cloud environments.
- Assessed controls aligned with compliance, audit, and privacy policies and regulatory expectations, documenting gaps and observations clearly.
- Assisted with internal and external audits by gathering evidence, validating control operation, and responding to auditor inquiries.
- Reviewed vulnerability and security findings and mapped them to control requirements to support risk-based assessments.
- Produced detailed assessment reports, risk documentation, and testing results to support compliance tracking and remediation follow-ups.
- Collaborated with risk, compliance, and technology teams to ensure consistent assessment processes and accurate reporting.
- Maintained strong attention to process, documentation standards, and audit readiness in regulated environments.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Supported security and control assessment activities by providing evidence and technical validation for cloud infrastructure controls.
- Assisted in evaluating access controls, network security configurations, logging, and monitoring against security and compliance requirements.
- Supported risk and control reviews related to IAM, MFA, database security, and cloud networking.
- Participated in walkthroughs to explain technical implementations to security, risk, and audit stakeholders.
- Provided documentation and artifacts required for compliance reviews, audits, and security assessments.
- Supported secure cloud operations in environments subject to organizational security and privacy policies.
- Documented system configurations, access models, and operational procedures to support control testing and audit evidence requests.
- Gained exposure to assessing cloud-based controls relevant to ISO-aligned and audit-driven security frameworks.
