

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience providing IT support, systems administration, cloud engineering, and security operations support in enterprise and hybrid environments.
- Strong background delivering multi-level technical support, resolving incidents, service requests, and system issues through structured troubleshooting and root-cause analysis.
- Hands-on experience administering operating systems, applications, endpoints, and cloud platforms, ensuring availability, performance, and security.
- Skilled in supporting IT service management processes including incident management, change coordination, access provisioning, onboarding/offboarding, and documentation.
- Experienced in monitoring system health, logs, and alerts to proactively identify performance, reliability, and security issues.
- Proven ability to support network connectivity, VPN access, and firewall-related troubleshooting to maintain secure and reliable user access.
- Adept at collaborating with cross-functional teams to improve operational workflows, reduce downtime, and enhance system stability.
- Strong documentation, communication, and organizational skills, with a focus on continuous improvement, automation, and operational efficiency.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA NPower Canada Toronto, Ontario	03/2026
Career Essentials in Cyber Security Microsoft and LinkedIn	03/2026
Certified Information Systems Auditor <u>(CISA)</u> ISACA	01/2025
Certified In Cybersecurity ISC2	06/2023

Graduate Certificate in Cybersecurity and Threat Management

Seneca Polytechnic | Toronto, Ontario

04/2023

Bachelors in Computer Science

Federal University of Petroleum Resources | Effurun, Delta State

08/2016

Professional Experience

Applications Security & Field Services Technician

08/2023 –08/2025

Accenture | Toronto, Ontario

- Delivered multi-level IT and application support, resolving end-user, system, and access-related issues through structured troubleshooting and timely incident resolution.
- Supported IT service operations including incident response, service requests, access provisioning, onboarding/offboarding, and change coordination to ensure smooth day-to-day operations.
- Administered user access and identity lifecycle processes, enforcing access controls and supporting least-privilege principles for internal and third-party users.
- Assisted with system security administration across enterprise platforms, including operating systems, applications, and security tools, ensuring availability and compliance with internal standards.
- Monitored system health, logs, and alerts to identify performance degradation, configuration issues, and potential security events, coordinating remediation with infrastructure teams.
- Supported network connectivity and remote access troubleshooting, including VPN access issues and firewall-related connectivity challenges.
- Participated in system upgrades, configuration changes, and platform improvements, validating changes through testing and documenting outcomes.
- Maintained technical documentation, procedures, and support guides to improve operational consistency and knowledge sharing.
- Assisted with audits, risk assessments, and control reviews by gathering evidence and validating system configurations.
- Identified operational inefficiencies and contributed recommendations that improved system reliability, support workflows, and service delivery.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Supported the deployment, administration, and maintenance of cloud-based systems and applications to ensure reliable and secure operations.
- Built and managed production workloads on AWS using services such as IAM, EC2, S3, RDS, CloudFront, ECS, and CloudWatch.
- Administered virtualized and cloud environments, monitoring performance and availability while responding to alerts and operational incidents.
- Assisted with system provisioning, upgrades, and migrations, including transitioning workloads from on-premise infrastructure to AWS.
- Automated routine operational tasks using shell scripting and infrastructure-as-code tools, reducing manual effort and improving consistency.
- Supported database administration activities, including migrations and performance tuning to improve reliability and maintainability.
- Collaborated with development and operations teams to troubleshoot infrastructure and application issues, ensuring timely resolution.
- Implemented containerized workloads using Docker, ECS, and ECR to improve deployment reliability and operational efficiency.
- Monitored infrastructure performance, contributing to reduced downtime and improved system stability.

- Maintained operational documentation and supported process improvements to enhance scalability, reliability, and long-term supportability.
