

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience supporting SIEM and security operations environments, including log ingestion validation, monitoring, troubleshooting, and operational support for SOC teams.
- Hands-on experience assisting with log source onboarding, validation of log ingestion, normalization, and basic parsing across endpoint, network, server, and cloud data sources.
- Strong experience supporting daily SIEM operations, including platform health checks, monitoring data flow, identifying ingestion gaps, and escalating issues as needed.
- Experience providing operational support to SOC analysts by ensuring data availability, platform stability, and timely resolution of SIEM-related issues.
- Working knowledge of security log sources including firewalls, endpoints, identity systems, servers, and cloud services.
- Familiarity with SIEM platforms (Microsoft Sentinel) and foundational concepts transferable to Splunk, Elastic, and FortiSIEM environments.
- Basic understanding of TCP/IP, common ports and protocols, and Windows/Linux operating systems relevant to log analysis and troubleshooting.
- Experience documenting operational procedures, onboarding steps, and troubleshooting activities to support audits and compliance requirements.
- Skilled in following change management and ticketing processes, including evidence collection and escalation to senior teams or vendors.
- Detail-oriented, process-driven professional with a strong willingness to learn scripting, automation, and advanced SIEM concepts over time.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA
NPower Canada | Toronto, Ontario

03/2026

Career Essentials in Cyber Security
Microsoft and LinkedIn

03/2026

Certified Information Systems Auditor (CISA)

01/2025

ISACA

Certified In Cybersecurity

06/2023

ISC2

Graduate Certificate in Cybersecurity and Threat Management

04/2023

Seneca Polytechnic | Toronto, Ontario

Bachelors in Computer Science

08/2016

Federal University of Petroleum Resources | Effurun, Delta State

Professional Experience

Applications Security & Field Services Technician

08/2023 – 08/2025

Accenture | Toronto, Ontario

- Assisted with SIEM onboarding and operational support activities across enterprise environments, supporting log source configuration and validation.
- Validated log ingestion, normalization, and basic parsing to ensure security data was available and usable for SOC analysts.
- Performed initial log source testing and verification following onboarding or configuration changes.
- Conducted daily health checks of SIEM platforms and supporting infrastructure to ensure platform stability and data continuity.
- Monitored log source status and data flow, identifying ingestion gaps, performance issues, or connectivity problems and escalating as required.
- Assisted with routine SIEM maintenance activities, including data retention validation, log availability checks, and basic housekeeping tasks.
- Provided operational support to SOC analysts by ensuring required security data was available for investigations and alert triage.
- Assisted with basic troubleshooting of SIEM-related issues, collaborating with senior team members and external providers for resolution.
- Followed established change management processes, including ticket creation, documentation, and approval workflows.
- Collected and organized evidence for audits and compliance activities, supporting control validation and operational readiness.
- Documented onboarding steps, operational procedures, and troubleshooting activities to support consistency and knowledge sharing.
- Participated in ongoing training, shadowing, and hands-on learning related to SIEM platforms and SOC tooling.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Supported log collection and monitoring for cloud-based systems, including servers, applications, and security services in AWS environments.
- Assisted with validating log ingestion and availability for cloud log sources such as access logs, system logs, and security events.
- Supported troubleshooting of log flow, connectivity, and configuration issues affecting monitoring and visibility.
- Worked with cloud-native log sources and security telemetry to support incident investigations and operational monitoring.
- Assisted with system and access reviews, validating permissions and configurations relevant to security logging.
- Provided documentation and operational artifacts to support security monitoring, audits, and compliance reviews.
- Collaborated with cross-functional teams to support stable system operations and security visibility.
