

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of hands-on IT support, cybersecurity, and cloud experience supporting Windows-based enterprise environments.
- Strong background in desktop, laptop, mobile device (iOS/Android), and peripheral support, including printers, desk phones, and end-user hardware.
- Experienced in troubleshooting hardware, software, and basic network issues, resolving tickets through structured helpdesk and escalation processes.
- Skilled in user and system administration across Active Directory, Office 365, IAM, and endpoint management platforms, ensuring proper access controls.
- Proven ability to onboard new users, deploy and configure workstations, and provide clear technical guidance and basic IT training.
- Comfortable working across office and production environments, supporting both corporate users and operational technology.
- Highly organized, documentation-focused, and collaborative, with a strong commitment to service quality, security standards, and continuous improvement.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA NPower Canada Toronto, Ontario	03/2026
Career Essentials in Cyber Security Microsoft and LinkedIn	03/2026
Certified Information Systems Auditor (CISA) ISACA	01/2025
Certified In Cybersecurity ISC2	06/2023

Graduate Certificate in Cybersecurity and Threat Management

04/2023

Seneca Polytechnic | Toronto, Ontario

Bachelors in Computer Science

08/2016

Federal University of Petroleum Resources | Effurun, Delta State

Professional Experience

Applications Security & Field Services Technician

08/2023 –08/2025

Accenture | Toronto, Ontario

- Provided hands-on technical support for desktops, laptops, mobile devices, and peripherals, resolving hardware, software, and connectivity issues in enterprise environments.
- Managed IT tickets through a centralized helpdesk system, including creation, prioritization, resolution, and escalation of user requests.
- Supported user account administration across Active Directory and Microsoft 365, including account provisioning, access changes, and MFA enforcement.
- Assisted with onboarding and offboarding activities, including workstation setup, device configuration, access validation, and basic end-user training.
- Performed endpoint troubleshooting and maintenance, ensuring compliance with security baselines, antivirus policies, and patching requirements.
- Supported asset deployment, tracking, and lifecycle management across teams and locations.
- Assisted with basic network troubleshooting, including connectivity issues, VPN access, and Wi-Fi-related incidents.
- Created and maintained clear incident notes, user guides, and internal documentation to support knowledge sharing and faster issue resolution.
- Collaborated closely with infrastructure, application, and security teams to resolve technical issues efficiently while minimizing business impact.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Provided day-to-day IT and systems support for users in a Windows and cloud-based environment, resolving access, configuration, and application issues.
- Supported user account management, permissions, and authentication controls across cloud platforms and directory services.
- Troubleshot workstation, application, and connectivity issues, escalating complex problems when necessary.
- Assisted with provisioning and configuring systems, supporting new user onboarding and system access setup.
- Monitored system logs and alerts to identify operational and security-related issues affecting users and applications.
- Supported basic networking concepts including TCP/IP, DNS, VPN connectivity, and cloud network configurations.
- Automated routine administrative and support tasks using scripting to improve efficiency and consistency.
- Documented procedures, troubleshooting steps, and system configurations, contributing to internal knowledge bases and support guides.
- Worked closely with development and operations teams to explain technical issues in clear, user-friendly terms and ensure timely resolution.
