

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience in cybersecurity, governance, risk, and compliance, with hands-on experience supporting security monitoring, alert triage, and incident investigation across enterprise environments.
- Experience working with Microsoft security technologies including Microsoft Defender suite and Microsoft Purview, supporting detection, monitoring, and data protection activities across cloud and SaaS platforms.
- Skilled in analyzing security alerts, investigating endpoint, identity, and cloud activity, and documenting incident findings to support response and remediation efforts.
- Strong background supporting financial services and enterprise environments, assessing security controls across networking, application security, databases, identity, and cloud platforms.
- Experienced collaborating with internal teams and security stakeholders to validate alerts, review system activity, and improve monitoring and detection capabilities.
- Certifications focused professional (CISA, ISC2 CC) with strong documentation, investigation, and stakeholder communication skills.
- Detail oriented and analytical professional with experience supporting security operations, incident response documentation, and continuous improvement of monitoring and data protection processes.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA NPower Canada Toronto, Ontario	03/2026
Career Essentials in Cyber Security Microsoft and LinkedIn	03/2026
Certified Information Systems Auditor (CISA) ISACA	01/2025
Certified In Cybersecurity ISC2	06/2023

Graduate Certificate in Cybersecurity and Threat Management

Seneca Polytechnic | Toronto, Ontario

04/2023

Bachelors in Computer Science

Federal University of Petroleum Resources | Effurun, Delta State

08/2016

Professional Experience

Applications Security & Field Services Technician

08/2023 –08/2025

Accenture | Toronto, Ontario

- Performed security monitoring and investigation activities by analyzing system logs, security alerts, and access control events across enterprise environments.
- Supported triage and analysis of security findings related to endpoint, identity, application, and cloud environments using Microsoft Defender security tools.
- Conducted technical walkthroughs with stakeholders to review system activity, validate alerts, and assess security control effectiveness.
- Investigated suspicious activity by reviewing authentication logs, endpoint activity, and network behavior to identify potential security risks.
- Assisted in validating and documenting security alerts by reviewing system configurations, access controls, and operational logs.
- Supported incident investigation activities by gathering evidence, analyzing system artifacts, and documenting findings for internal reviews.
- Reviewed vulnerability findings and mapped them to potential risks affecting applications, cloud environments, and enterprise systems.
- Produced detailed documentation including investigation notes, assessment findings, and remediation observations.
- Collaborated with security, risk, and technology teams to support investigation processes and improve monitoring visibility across enterprise systems.
- Maintained strong documentation practices supporting security investigations, audit readiness, and operational reporting.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Supported monitoring and security operations activities across cloud infrastructure environments by reviewing system logs, network events, and authentication activity.
- Assisted with investigation of suspicious system activity and anomalies across cloud workloads and user access events.
- Evaluated access controls, identity configurations, and network security settings to ensure proper security posture across cloud environments.
- Participated in system walkthroughs and technical discussions with engineering teams to review architecture, configurations, and operational processes.
- Assisted with documenting system configurations, cloud architecture, and operational procedures supporting secure cloud operations.
- Reviewed monitoring outputs and system alerts to identify potential issues affecting cloud workloads or infrastructure components.
- Provided documentation and technical artifacts supporting internal security reviews and compliance assessments.
- Supported secure cloud operations aligned with organizational governance, security, and privacy requirements.
