

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience in IT security operations, infrastructure security, and incident response within enterprise and regulated environments.
- Strong hands-on experience monitoring network traffic, system logs, and security alerts to detect threats, vulnerabilities, and anomalous activity in real time.
- Proven ability to participate in incident response activities, perform root-cause analysis, and support remediation efforts aligned with operational security standards.
- Experienced in vulnerability management, security assessments, and patch management to reduce risk and strengthen system resilience.
- Hands-on experience evaluating and improving security controls including firewalls, intrusion detection systems, endpoint protection, and anti-malware solutions.
- Skilled in developing, reviewing, and maintaining IT security policies, procedures, and operational standards aligned with ISO 27001, SOC 2, PCI DSS, and GDPR.
- Strong background supporting internal and external audits through evidence collection, documentation, and control validation.
- Effective collaborator with cross-functional teams to integrate security requirements into infrastructure upgrades, new technologies, and IT projects.
- Experienced in delivering security awareness initiatives and contributing to a strong organizational security culture.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA NPower Canada Toronto, Ontario	03/2026
Career Essentials in Cyber Security Microsoft and LinkedIn	03/2026
Certified Information Systems Auditor <u>(CISA)</u> ISACA	01/2025

Certified In Cybersecurity**06/2023**

ISC2

Graduate Certificate in Cybersecurity and Threat Management**04/2023**

Seneca Polytechnic | Toronto, Ontario

Bachelors in Computer Science**08/2016**

Federal University of Petroleum Resources | Effurun, Delta State

Professional Experience**Applications Security & Field Services Technician****08/2023 –08/2025**

Accenture | Toronto, Ontario

- Monitored network traffic, system logs, and security alerts using SIEM and endpoint tools to detect potential threats, vulnerabilities, and unauthorized activity.
- Participated in incident response activities, supporting investigation, containment, remediation, and post-incident root-cause analysis.
- Assisted in developing, maintaining, and enforcing operational IT security procedures and standards to support a consistent security posture.
- Evaluated existing IT infrastructure and supported enhancements to security controls, including firewall rules, intrusion detection mechanisms, and endpoint protection configurations.
- Conducted security assessments for applications, systems, and new initiatives to ensure compliance with organizational security policies and standards.
- Supported vulnerability management by reviewing scan results, prioritizing risks, and coordinating remediation with infrastructure and application teams.
- Participated in patch management and change management processes, ensuring security considerations were incorporated into system updates and configuration changes.
- Assisted with internal audits and external audit preparation by gathering evidence, validating control effectiveness, and maintaining audit documentation.
- Monitored compliance with security frameworks and regulatory requirements, including ISO 27001, SOC 2, and PCI DSS.
- Contributed to security awareness efforts by supporting training initiatives and providing guidance on secure practices to technical and non-technical users.
- Maintained up-to-date security documentation, procedures, and operational playbooks to support audit readiness and incident response.

Cloud Engineer**07/2019 – 08/2022**

Findworka Solutions Limited | Remote, Lagos

- Supported secure deployment, administration, and monitoring of cloud-based infrastructure and applications in AWS environments.
- Monitored system logs, performance metrics, and alerts to identify security and availability issues, responding promptly to incidents.
- Implemented and maintained security controls including IAM policies, network security configurations, and logging mechanisms.
- Conducted vulnerability assessments and supported remediation activities to reduce exposure across cloud workloads.
- Assisted with patch management, system upgrades, and infrastructure changes while following established change management processes.
- Collaborated with development and operations teams to design and implement secure infrastructure solutions aligned with security standards.

- Supported compliance efforts by maintaining documentation, system configurations, and evidence required for security reviews and audits.
- Automated routine monitoring and operational tasks using scripting and infrastructure-as-code tools to improve efficiency and consistency.
- Contributed to continuous improvement initiatives by identifying security gaps and recommending enhancements to controls and processes.
