

Victor A Monday

Toronto, Ontario | 437 260 7216 | monday.akubudike@outlook.com | [LinkedIn](#)

Professional Summary

- Over 5 years of experience supporting Identity and Access Management (IAM) activities within enterprise and regulated environments, with a strong focus on access governance, lifecycle management, and control validation.
- Hands-on experience implementing and supporting IAM best practices, including user provisioning and deprovisioning, role-based access, access reviews, and account lifecycle management.
- Experience supporting Privileged Access Management (PAM) concepts, including privileged account reviews, entitlement validation, and segregation of duties.
- Strong background documenting and identifying gaps across IAM processes, tools, and controls, and collaborating with stakeholders to prioritize remediation actions.
- Experience assisting with drafting, reviewing, and maintaining security policies, standards, and procedures related to identity governance and secure access.
- Working knowledge of Microsoft Entra ID and Entra Governance concepts, including identity governance, access reviews, and conditional access controls.
- Experience supporting identity governance and administration (IGA) and customer identity (CIAM/B2C concepts) within enterprise security programs.
- Hands-on experience supporting security risk assessments, control monitoring, and internal control testing related to IAM programs.
- Skilled in developing and maintaining IAM documentation, metrics, and control evidence to support audits and certifications.
- Detail-oriented, process-driven professional with strong communication and stakeholder collaboration skills, supported by CISA and ISC2 Certified in Cybersecurity credentials.

Tech Stack & Skills

Languages:	SQL, Python, Kusto Query Language (KQL), PowerShell Scripting, JavaScript , Splunk, Wireshark, Autopsy, Encase and AWS KMS
Operating Systems:	Windows, Android, iOS, Mac OS, Linux
Security Tools:	Microsoft Defender suite (including Defender for Office 365, Cloud Apps, Purview, Endpoint, Identity), Microsoft Sentinel
Applications & Tools:	Microsoft Excel, Azure Sandbox
AI Fundamentals:	Prompt Engineering & Output Evaluation, Creating responsible generative AI solutions, Microsoft Security Copilot (Copilot in Defender XDR, Purview, Entra, Intune and Cloud)
Project Management Fundamentals:	Agile, Waterfall, Scrum, Kanban, Trello
Skills:	Information security, Malware Analysis, Network Monitoring, Threat Detection, Incident Response, Time Management, Problem Solving, Teamwork and Creativity

Education & Certifications

Security Operations Analyst Program: Microsoft Certified SOA
NPower Canada | Toronto, Ontario

03/2026

Career Essentials in Cyber Security
Microsoft and LinkedIn

03/2026

Certified Information Systems Auditor (CISA)

01/2025

ISACA

Certified In Cybersecurity

06/2023

ISC2

Graduate Certificate in Cybersecurity and Threat Management

04/2023

Seneca Polytechnic | Toronto, Ontario

Bachelors in Computer Science

08/2016

Federal University of Petroleum Resources | Effurun, Delta State

Professional Experience

Applications Security & Field Services Technician

08/2023 – 08/2025

Accenture | Toronto, Ontario

- Supported enterprise Identity and Access Management (IAM) programs, focusing on access governance, control validation, and lifecycle management activities.
- Assisted with implementing and maintaining IAM processes, including user onboarding, role changes, access modifications, and timely deprovisioning.
- Conducted access reviews and entitlement validations across applications, infrastructure, and cloud platforms, ensuring adherence to least privilege principles.
- Supported Privileged Access Management (PAM) activities by reviewing privileged accounts, validating access justifications, and documenting control effectiveness.
- Assisted with identifying and documenting IAM process gaps across tools, workflows, and controls, collaborating with technology and business teams on remediation priorities.
- Supported drafting, reviewing, and updating IAM-related security policies, standards, and procedures to align with regulatory, contractual, and organizational requirements.
- Maintained and enhanced IAM lifecycle documentation, including identity governance processes and access control workflows.
- Assisted with control monitoring and internal risk assessments related to IAM, documenting findings, risks, and remediation actions.
- Developed and maintained IAM metrics, evidence, and control documentation to support internal reporting and management review.
- Supported audit and certification activities by gathering evidence, responding to auditor inquiries, and validating corrective actions related to identity controls.
- Collaborated with IAM, security, and application teams to ensure consistent implementation of identity governance controls across the enterprise.

Cloud Engineer

07/2019 – 08/2022

Findworka Solutions Limited | Remote, Lagos

- Supported identity and access controls within cloud environments, focusing on IAM configuration, role assignments, and secure access management.
- Assisted with managing user identities, service accounts, and access permissions across cloud platforms in line with security policies.
- Supported access lifecycle activities, including provisioning, modification, and removal of access for users and service accounts.
- Assisted with privileged access reviews and validation of elevated permissions within cloud environments.
- Worked with cloud IAM tools and concepts to enforce least privilege and segregation of duties.
- Supported documentation of identity architectures, access models, and control procedures for audit and security reviews.

- Collaborated with security and infrastructure teams to remediate IAM-related risks and misconfigurations.
